PRINCIPAL INDIVIDUAL PLAYS

List all scoring plays; also non-scoring plays (including punts) gaining 50 yards or more, and all missed field goal attempts.

Under "type of play" indicate rush, pass, int. runback, punt runback, kickoff runback, punt or field goal. List tries-for-points as P.A.T. kick, P.A.T. rush or P.A.T. pass.

On pass play, give passer first, then receiver, and combined yardage of pass and run. Measure runbacks from goal line, if started in end zone. Measure field goal attempts from point of kick. All other plays are measured from line of scrimmage.

CONDENSED RULES FOR RECORDING FOOTBALL STATISTICS*

(Originated by the N.C.A.A. Football Rules Committee's Sub-committee on Football Statistics)

SECTION 1 — FIRST DOWNS.

A first down shall be recorded whenever the yardsticks are ordered forward by the officials, and when a touchdown is scored from scrimmage (by rushing or passing) within a series of downs starting 10 yards or more from the goal line. A first down is **not** recorded on a touchdown runback, regardless of the distance of the scoring run.

SECTION 2 — RUSHING.

Article 1: All offensive running plays are to be classified as rushing plays, **not** as "plays from scrimmage," since any play begun with a snapback from center actually is a play from scrimmage.

Article 2: Rushing yardage is measured from the line of scrimmage to the point where the ball is declared dead, or is recovered by opponents in the case of a fumble.

Article 3: The rushing total is a **net** figure. All rushing losses must be recorded so as to account for the net figure.

Article 4: All gains on lateral passes which originated or grew out of a rushing play are included in rushing yardage. (See Article 1 of Section 4.)

SECTION 3 — FORWARD PASSING.

Article 1: Forward passing gains or losses are measured from the scrimmage line to the point where the ball is declared dead (or is recovered by opponents in the case of a fumble), so as to include both length of pass and running advance after completion. All yards gained or lost on each completed pass play are credited to **both** the passer and the receiver.

Article 2: Loss from a completed forward pass which did not advance the ball to the scrimmage line is a yardage charge against passing gain.

Article 3: Any loss by a player apparently intending to pass, but thrown behind the line of scrimmage, is recorded as a **loss by rushing**. He is **not** a passer until he has thrown the ball, and he retains at all times the option of running.

Article 4: Interception returns are measured from the point of interception to the point where the ball is declared dead (or is recovered by opponents in the case of a fumble).

Article 5: There is **no** pass completed by penalty. A gain through interference on a passing play is a penalty against the defending team. The passer is **not** charged with a pass attempt, nor credited with a pass completed or yards gained; nor is the intended receiver (or the player interfered with) credited with a pass caught. The passing team

is credited only with a first down by penalty. The defensive (offending) team is charged with a penalty, and the distance from the line of scrimmage to the spot of the penalty under "yards penalized."

Article 6: The forward passer is charged with a forward pass attempt when a forward pass is ruled intentionally grounded.

SECTION 4 — LATERAL PASSING.

Article 1: A lateral pass is always a component part of the ultimate play, whether it precedes or follows that play, since the lateral is merely an extension of the original or ultimate play, in effect.

(Approved Ruling — Player A receives a forward pass for a gain of 10 yards, then throws a lateral pass to Player B, who gains an additional 5 yards. Player A is credited with one pass caught and 10 yards under "receiving." Player B is credited with NO pass caught and with 5 yards under "receiving." Player who threw the forward pass is credited with 15 yards under "forward passing.")

(Approved Ruling — Player A catches punt and returns 10 yards before throwing a lateral pass to Player B, who returns another 5 yards. Player A is credited with one return and 10 yards under "punt returns." Player B is credited with NO return and with 5 yards under "punt returns.")

Article 2: Incomplete lateral passes are scored as fumbles, and yards lost are charged against the player who, in the scorer's opinion, was responsible for the failure of the pass.

Article 3: Intercepted lateral passes are scored as fumbles, the offensive team being charged with a fumble lost.

Article 4: The official scorer rules on whether a completed pass to a flanker or man-in-motion is a forward or a lateral pass. If the latter, the play is recorded under "rushing." If the pass is incomplete, the subsequent action of the officials reveals whether the pass was a forward or a lateral.

SECTION 5 — TOTAL OFFENSE.

Article 1: Total offense is the combined result of rushing and forward passing **only**, since these two are the only methods by which legal advance can be initiated while retaining possession of the ball.

Article 2: Total offense yardage is the total of **net** gain by rushing and net gain by forward passing. "Receiving" yards gained are **not** included in total offense.

WILD PASS FROM CENTER.

Any loss resulting from an **obvious** wild pass from center is charged to "center pass," and not to any individual player.

(Continued on back of Form 347-B)

 MICHIGAN 27 NORTHWESTERN 6
 Milam's pass for Proffitt incomplete.
- Stamison's kickoff bounced off a M lineman and Dau recovered for N on the N 47.
- N 1-10-N 47 Milam's pass for Proffitt incomplete.

END OF THE GAME: MICHIGAN 27 NORTHWESTERN 6

COACHES' COMMENTS

Ara Parseghian, Northwestern:

I thought the field position that Michigan had as a result of our fumbles and three interceptions made the difference in the game. The team had been up all week and we had had a good practice, but the turn-overs (meaning those fumbles and interceptions) just kept us in a hole. On Henderson as a pass receiver, we doubled up on him a couple of times but we had to play for percentages and it didn't work. We won the toss at the beginning of the game and decided to kick off with the wind at our back. Michigan made the same decision beginning the second half. The wind did not affect Myers' passing any more than it did Timberlake's. Tom didn't have a great day but ~~Myers~~ Sandy Koufax gets knocked out of the box sometimes too.

Bump Elliott, Michigan:

We knew Northwestern was going to be a good team, but we felt if we could get a good rush on Myers and good coverage by our defensive backs we could beat them. We got both today. The line put on a fine rush and our defensive backs had their best day of the season. Rindfuss and Rowser both played extremely well and turned in some good plays early in the game. I thought Laskey also turned in a fine game for us. A lot of credit for the victory goes to our assistant coaches, particularly Don Dufek who scouted Northwestern, and Bob Hollway who devised the defenses. We changed our defenses and tried to keep them off balance and succeeded quite well. The victory was a team effort, and I thought our first line did very well but the reserves kept up the tempo throughout. We had a lucky break in having Henderson in on defense on that one touchdown. We couldn't get him out under the substitution rule at the time and this turned out to be a real break for us. We've been looking for a lucky break for some time and we got one today. As far as injuries go, Rindfuss has a bruised elbow, but nothing else has shown up as yet. We gambled on taking the wind at the start of the second half and it turned out that this move broke our way.
